

Makri Marina

Mrs. Marina Makri holds a PhD from the School of Medicine, Aristotle University of Thessaloniki, in the field of Genetic Counselling on Neurodegenerative Disorders.

She has

been awarded for her PhD by the A. G. Leventis Foundation's Educational Grants Scheme for Doctoral students and also by the Special Account of Research Funds of Aristotle University of Thessaloniki. She also holds an MA in Counselling Psychology and Psychotherapy, and BSc and MSc degrees in Biology from the Aristotle University of Thessaloniki, Faculty of Sciences, School of Biology. She works at the Greek Association for Alzheimer's Disease and Related Disorders (GAADR) as a coordinator and is responsible for writing and implementing the Erasmus+ European projects since 2015. She has been the coordinator of an Erasmus+ KA2 project "Genetic counselling in European universities: The case of neurodegenerative diseases", at Aristotle University of Thessaloniki. She worked as a research associate in the Biomedical Research Foundation of the Academy of Athens and as an external collaborator in the School of Medicine of Washington University. She is a senior researcher on issues of dementia, supporting family caregivers and genetic counselling, and she has taken part in many European meetings and training courses for caregivers and patient advocates. In the last years, she has been a member of the National Society of Genetic Counselors, the Hellenic Association of Medical Geneticists, the Hellenic Society for Neurosciences, the Federation of European Neuroscience Societies (fens), a member of INTERDEM Academy and a member of the 5th European Health Parliament. As part of her advocacy work, she has been one of the five board members of the Greek Carers Network for 7 years and the main representative of GAADR in all the events organized by Eurocarers. She has attended various conferences and meetings, and she has taken part in with presentations.
